

Project Finance & Energy

"Advises on regulations and projects involving transport or energy infrastructure, and water or wastewater, and has niche expertise in photovoltaic energy" Legal 500

Profile

FBC's Project Finance & Energy department is one of the leading practices in Israel and has counseled many of the world's most prominent companies in Israel's most significant projects and energy matters, totaling tens of billions of NIS.

FBC's expertise spans all sectors, from transportation, infrastructure and natural gas to energy, water and the photovoltaic (PV) energy field, with particular focus on the complex regulatory and real-estate aspects that are integral to this sector.

FBC combines its expertise in Project Finance & Energy with its strength in other related practice areas, enabling it to provide a comprehensive solution to both major multinational and domestic clients, including developers, contractors, and financial investors.
