

Planning & Zoning

Profile

FBC's Planning & Zoning practice provides services covering the full range of planning and zoning matters in the Israeli real estate market.

The practice is a leader in the field and deals with large scale projects and complex legal matters for Israel's most prominent real estate companies.

Our attorneys manage the planning implications of some of Israel's largest real-estate projects - both residential and office and commercial projects - and are navigating clients through complex planning processes while providing comprehensive solutions to optimizing building rights.

The experienced team of our Planning & Zoning practice provides clients with close and comprehensive attention to legal subtleties as well as business implications in the complex environment of the Real Estate market.

The Planning & Zoning practice offers clients complete service in many of the most notable real estate projects in Israel, and works in close collaboration with other FBC practices, including Real Estate, Environmental, and Litigation.

Representative Matters & Clients

Clal Industries Ltd., in projects in the cities of Nesher and Dimona for thousands of residential units, including open areas and commercial, cultural, recreational, sport and business sites.
