

Capital Markets

"One of the market leaders for corporate and securities work in Israel" IFLR 1000

Profile

FBC has one of Israel's leading Capital Markets practices. The Capital Markets team provides counsel on international and local public offerings, private placements, controlling shareholder transactions and issues relating to corporate governance, and ongoing reporting and filing requirements under Israeli and foreign securities laws.

FBC represents issuers, banks and underwriters in large and complex placements of equity and debt securities on the Israeli and international capital markets and is considered to be a pioneer in developing complex capital financing provided by insurance companies, and in advising on negotiable and non-negotiable financial instruments, exchange-traded certificates and bond transactions.

FBC's representation regularly includes preparation of prospectuses and other disclosure documents, conducting due diligence reviews, assisting with corporate and tax planning, negotiating between issuers and underwriters and counseling with respect to a full range of regulatory authorities, including the Israel Securities Authority, stock exchanges in Israel and abroad, and rating agencies.

Representative Matters & Clients

Joint Global Coordinators (JP Morgan and HSBC) and Israeli Underwriter (Leader Underwriters) in the IPO of Tamar Petroleum Ltd., the first equity offering of its kind, combining a public offering in Israel, and offerings in the United States, Europe and other jurisdictions
